Steps

1. Print and check the 3 cm calibration square before cutting.
2. This block uses standard assumptions for shoulder slope and underbust sew a quick muslin first and adjust before cutting your real fabric.
3. Cut every piece as labelled ('on fold' on the fabric fold, 'cut 2' twice), sleeves twice. Check the neck opening against your head circumference a top has no zipper, it must slip over your head.
4. Fuse interfacing to the neck facings.
5. Staystitch the neckline just inside the seam line so it doesn't stretch while you work.
6. Sew the shoulder seams and press them open.
7. Sew the front and back neck facings together at the shoulders; finish the facing's outer edge (zigzag, overlock or turn 5 mm and stitch).
8. Attach the facing to the neckline right sides together, sewing exactly on the seam line. Trim to 6 mm, clip into the curve every 2 cm.
9. Understitch: press the seam allowance toward the facing and stitch it to the facing 2 mm from the seam this is what keeps the facing rolled inside. Turn, press, and tack the facing down at the shoulder seams.
10. Sew the side seams.
11. Sew each sleeve seam, ease the cap between the notches and set the sleeves in.
12. Hem with a 2 cm double fold.
13. Collar (Shirt Collar / gömlek yaka): a two-piece convertible collar a stand band drafted to the neckline length plus a turnover blade cut a little deeper so it covers the stand seam. Interface both under layers. Make the blade first (stitch outer edge, clip the points, turn), sandwich it between the two stand layers, stitch the stand top edge, then sew the stand's bottom edge to the neckline matching centre back and shoulder notches.
